Welcome letter

A comfortable, culturally and historically rich platform, where those who wish may enjoy a moment of peacefulness and set off for the interpretation and fruition of the surrounding territory and culture. This is the basis of our concept.

The Quinta is not a Resort where everything happens within four walls. It is a manorial, homelike house, surrounded by fields and orchards, organised and preserved according to the traditional island structure, integrated in a larger territory you're invited to explore.

In that context, some sharing and conviviality with the residents and owners is expected, an idea that is at the base of Manor House tourism.

In this regard, we always go back to an over forty year-old story, usually told in relation to Manor House tourism, then just starting in Portugal:

Once upon a time, one night, a Belgian arrived at a Manor House in northern Portugal. He was going to stay in that house for a week. When he knocked and entered, he found himself face to face with the Belgian prime-minister - no less - greeting him at the top of the stairs. Why? Because the owner had gone somewhere and had asked his friend - the prime minister - (who often went there to rest for a few days), to do him the favour of greeting the guest who was about to arrive.

That is our idea of Manor House tourism and we intend to practice it. Not that we make a point of asking our guests to greet each other. It is the notions of sharing of tastes and knowledge and of stimulating the discovery and quiet leisure that are core to us. All this while having the island, the Azores and the World present in the background.

Should you have any questions or queries do not hesitate to contact us.

Greetings,

Francisco Maduro-Dias
Lucília Maduro-Dias
